- 2 one button StartStick transmitters
- Unit will accept up to 4 remote controls
- Glass mount antenna with built-in LED light and valet switch
- Dual stage shock sensor
- Starter interrupt output w/ relay included

### **FLCAN**

#### **FlashLogic FLCAN Module**

Connects to your vehicle's databus interface, enabling communication with any Code Alarm keyless entry or security system.

- Doorlock/alarm integration module
- Allows Code Alarm alarms to work in a wide variety of vehicles
- Glass mount antenna with built-in LED light and valet switch
- Requires splicing into vehicle's factory wiring

## Ultrasonic Audible Backup Sensors

**AUDIOVOX®**  
CORPORATION

Not every backup protection requirement calls for camera-based rear observation. Audiovox audible backup sensors also offer excellent collision avoidance warning. Ultrasonic technology notifies drivers of objects outside of their view and indicates closing distance with warning beeps. Our sensors can be easily mounted on bumpers or license plates and are designed to be weather resistant. They scan the vehicle's blind spot when in reverse and emit a progressively faster tone as the vehicle approaches the object.

### PSD100

#### Digital Front or Rear 2 Sensor Upgradable System with Learning Capability

This system can actually learn to ignore vehicle mounted objects i.e bike racks, mounted spare tires, and/or hitch mounted accessories so it can focus on objects that it might hit. The PSD100 uses flash memory to learn and remember the obstacles on or around the vehicle.

- 2 sensors detect obstacles over 6 feet away from the bumper
- System can be installed as a front or rear sensor system
- Waterproof connectors allow replacement of individual sensors at the bumper

### PSD200 4 Sensor Upgrade System

### PSS100

#### Backup Warning OEM grade digital 2 sensor upgradable system

- 2 sensors detect obstacles over 5 feet away from the bumper
- Waterproof connectors allow replacement of individual sensors at the bumper
- System is upgradable to a 4 sensor system using PSS200 2 sensor add-on kit
- Includes 0 degree and 8 degree angle sensor sleeves to fit most bumpers
- Sensors can be flush installed without the sleeves for a more OEM look

### PSS200 4 Sensor Upgrade System

### PBS100

#### Basic 4 Sensor System (Rear Mounted Application Only)

The PBS100 is our basic rear mounted sensor system. This system comes with 4 sensors with three detection zones; zone 1 is 4.5-2.5 feet with a slow audible beep, zone 2 is 2.4-1.3 feet with a medium beep and zone 3 is 1.3 feet to vehicle with a steady tone.

- System comes with 4 sensors with three detection zones
- Includes 8 degree angle sensor sleeves to fit most bumpers
- Sensors can be flush installed without the sleeves for a more OEM look
- Adjustable buzzer volume and tricolor LED warning module helps with object range notification

### VOD10PS2

#### Mobile Video Overhead + Playstation 2 Computer Entertainment System

Comes with everything needed for gaming right out of the box: a 10.2 inch LCD screen with built-in dome light, two wireless game controllers, two fold-flat RF wireless headphones and two Playstation 2 game titles to get you started. There's also a remote control that controls the built-in DVD and Playstation 2 gaming system..

#### Features:

- Built-in, 16 channel FM modulator with FM transmitter function
- Infrared headphone transmitter
- Aux A/V inputs built into overhead system

PS2  
PlayStation 2

## DICE Electronics DUO

### iPod, iPhone + Internet Radio and SIRIUS. All with the DUO

The DICE Silverline DUO is a vehicle specific integration solution for iPod/iPhone/SIRIUS. The kit includes everything needed to connect an iPod or iPhone to your vehicle's factory radio system. The interface delivers great sound quality with balanced audio design and creates a seamless interconnection between the devices and the entertainment system of the vehicle. Text display is available on radio systems where CD or SAT text is supported. The interface also delivers integrated control from the radio, steering wheel, the connected device or from an optional remote.

- **Livio Car Internet Radio. More than 45,000 stations...in your car!**
- **Connect your iPod, iPhone or SIRIUS satellite radio\*.**
- **Balanced audio design.**
- **Quickly access your favorite hits.**
- **Keeps you charged and ready to go.**

\*requires a SC-C1 SIRIUS Connect Vehicle Tuner

## DICE MediaBridge

### iPod control, an aux input, and a satellite radio connection

Just mount the compact hideaway box in a hidden location in your vehicle, and connect the included 40" harness to your factory stereo. You can plug your iPod or iPhone® into the USB input on the MediaBridge, then browse your music library by album, artist, or playlist right from the radio or with your steering wheel audio controls. The direct connection to your stereo gives you superior sound, and your iPod will stay charged while you drive. You can also load up a USB thumb drive with MP3, WMA, and AAC files.

- **MediaBridge lets you listen to internet radio in the car!**
- **Pleasure to your ears through Digital USB audio.**
- **Safer driving integrated Bluetooth MAT™ (Music Announcer Technology)**
- **Connectable devices can be controlled from the radio or steering wheel controls.**
- **Need even more content? Get SIRIUS!\***

\*requires a SC-C1 SIRIUS Connect Vehicle Tuner

## Universal RDS

### Universal Media Interface

The DICE Universal RDS supercharges your factory car radio with features like iPod and iPhone connectivity and internet radio. This universal kit connects directly to your car radio's factory antenna loop giving you crystal clear audio without any static or noise EVER. With RDS technology, artist and song names are displayed on your radio and the Universal RDS is ready for the future because you can update its features and device compatibility right from your computer with the DICE FW Update Application.

- **Internet radio for ANY car!**
- **Connect your iPod® and iPhone®**
- **See what you're listening to.**
- **Noise free, digital circuitry.**
- **Quickly access your favorite hits.**

## G2 Cradle

### The Ultimate add-on for any iPod and iPhone dock accessory!

The new DICE G2 Cradle is designed with features that enhance the in-car experience of popular iPod and iPhone models. It holds your iPod or iPhone while connected to your car integration kit, rear-seat entertainment system or cigarette lighter charger.

- **Securely holds your iPod or iPhone**
- **Compliments your car's interior**
- **Long and short mounts with many mounting options**
- **Adjustable ball mount, compact dimensions**
- **Six, easily interchangeable holders**

Supporting our favorite iPod models.

CHAMELEON

**CLD700DISP**

## 2-Way Communication Systems

### C3-RS1100 OLED 6-Channel Alarm with Remote Car Starter and Two Way SST Full Color OLED Remote Transmitter. "One Mile Range"

#### MAIN FEATURES:

- 6 Channel Alarm/Remote Car Starter with 5 on-board relays for parking lights, starter, accessories, ignition 1&2 and one additional relay / socket for starter disable.
- USB Rechargeable lithium Ion battery with New and Improved wall charger.
- OLED screen with 50% more viewing space in full color.
- 2-way paging transceiver with OLED screen uses SST™ Spread Spectrum Technology for transmitting and receiving at 915 megahertz. Unit includes 24-hour clock with meter minder, temperature, Voltage indicator and countdown run timer.
- Design 2-way, window mount super extended range helical transceiver antenna module.
- 5-button extended range METAL FINISH one way remote transmitter.
- "On-board 2 way Serial Port" for Data Bus and Bypass module integration.
- C3 compatible data port for C3 Telematics integration

### C3 RS-915LCD 2-Way LCD 900Mhz Remote Car starter w/ 6 channel Alarm

#### FEATURES

- 6 Channel Alarm/Remote Car Starter with 5 on-board relays for parking lights, starter, accessories, ignition 1&2 and one additional relay / socket for starter disable.
- High-Tech chrome metal finish with smart-looking leather strap for the key ring.
- USB Rechargeable lithium Ion battery with wall charger.
- LCD screen with 50% more viewing space includes new 7-color selectable backlighting.
- Two-way paging transceiver with 7-color LCD screen uses SST Spread Spectrum Technology for transmitting and receiving at 915 megahertz. Unit also includes 24-hour clock with meter minder, temperature, Voltage indicator and countdown run timer.
- Design Two-way, window mount super extended range helical transceiver antenna module.
- 5-button extended range METAL one way remote transmitter.
- On-board 2 way Serial Port for i-Data Link Data Bus and Bypass module integration.

### C3-RS730 LCD 4-Channel Alarm with Remote Car Starter & 2-Way AM/AM Paging LCD Remote

#### ALARM FEATURES

- 4 Channels of outputs (3 dedicated to lock/unlock, trunk and remote start / 1 auxiliary output)
- Dedicated function buttons on LCD remote and 5-button standard mini-remote transmitter.
- New Turbo Timer and window Comfort Feature .
- Code learning / Anti-scan receiver with programmable code hopping.
- Starter disable output with relay and socket included
- 3-color LCD screen displays 29 icons and figures that provide for around-the-clock visual confirmation on vehicle and alarm status. Back lighting for nighttime use.
- 24-hour digital clock with count down timer for parking meter reminder. The clock doubles as a temperature indicator for monitoring in-car temperature.

### RF-425LCD Four Channel Security System w/ 2-Way AM/AM LCD

#### STANDARD FEATURES

- New XT-43LCD Two-Way 4-Button AM/AM mini-LCD Remote Transmitter
- One 5-Button XT-33 Standard One way mini-transmitter with Blue LED
- 56 Bit Random Code Hopping
- Passive Arming By-pass from Remote
- Code Learning / Anti-scan
- Receiver Shift Button for 2nd Car Operation
- 2nd Channel Trunk Release
- 3rd and 4th Channel Auxiliary Outputs
- Starter Disable with Relay and Socket
- 120 dB Electronic Siren with Optional Dedicated Horn Output
- Plug-in Push-type Valet/Override Switch

## Remote Car Starters

### C3-RS-665 Remote Car Starter w/ 3 Channel Alarm

#### ALARM FEATURES

- TWO, 5 button High Frequency (433.92 MHz Mini-size Remote Transmitters w/S.A.W. Resonator & Blue LED
- C3 compatible
- 66 Bit Random Code Hopping / Code Learning / Anti-scan Receiver
- RX300A Super Heterodyne Extended Range Window Mount Antenna Receiver with S.A.W. Resonator and 4-pin connector
- 120 dB Electronic siren w/ Optional Horn Output
- Starter Disable (500 mA output) with Relay and Socket included

## Autopage Alarms

### RF-350 Three Channel Alarm w/ On-Board Shock Sensor

#### STANDARD FEATURES

- Two, 5 button Mini remote transmitters Dedicated lock / unlock
- 56 Bit Random Code Hopping
- Passive Arming & Auto rearm by-pass from transmitter
- Code Learning / Anti-scan / Anti-code grabbing
- New on-board Electromagnetic (EMS-1)
- Shock sensor adjust via remote
- 3rd Channel Auxiliary Outputs
- 115 db electronic siren

## Safety Products - Backup Sensor

### BPS4 4 Sensor system with audible & visual alerts

#### The danger of blind zones

The area behind your vehicle can be a killing zone Every year, children are injured and killed because drivers (in some cases, parents) don't see them while backing up. At least 50 children are backed over every week in the U.S. Forty-eight are treated in hospital emergency rooms and at least 2 children die.

#### Smart & Affordable Safety

The AutoPage BPS-4 Backup Parking Sensor system comes with everything you need to enjoy comparable safety and functionality to some of the most expensive vehicle damage protection systems.

#### Includes:

- 4 Bumper Sensors
- In-Vehicle LED Display Panel
- System Controller
- Cabling & Connectors
- Installation Instructions
- Tooling Bit

	<b>3-5 Feet:</b> Short beeps/ Slowly flashing LED display
	<b>2-3 Feet:</b> Longer beeps/ Quickly flashing LED display
	<b>1.5 Feet:</b> Continuousbeep/ Continuous LED display

### iDataLink ADSTB

#### OEM Integration MULT-SERIES Transponder Bypass Kits

FeaturesDescription: This product supports all our vehicle integration solutions in one for both passive anti-theft bypass (transponder, Vats, Passlock, PK3, etc...) and convenience features such as doorlocks, trunk release, sliding door control (where applicable) etc.. Do note that some solutions require additional accessories so please refer to our vehicle fit guide for more information.

- Downloadable Software
- iDataLink (RS232) Communication
- iDataLink 2-WAY Compatible
- Transponder Bypass
- Data Immobilizer Bypass
- Installer Features
- Radio (RAP) Shutdown Control

The Ultimate Vehicle Security and Convenience Systems

### 4113A AM6.2 Remote Start with Two 1-Button Transmitters

The AM6.2 is a remote start system with two easy to use, 1-button remotes.

- XR+ Technology for maximum starting range
- Parking Light Flash Confirmation
- Doors lock when you start your car
- Super bright LED status indicator built into the remote
- Three Year Product Warranty
- National Travelers Service Program
- \$2500 Product Performance Guarantee

### 3101A AM5 Security and Keyless Entry System with Two Transmitters

Full-featured security system with starter kill, shock sensor, 4-button remote transmitters.

- Parking Light Flash Confirmation
- Flashing LED Status Indicator
- Failsafe® Starter Kill
- Dual Stage Shock Sensor
- Remote Door Lock / Unlock
- Remote Panic
- \$2500 Product Performance Guarantee

### 2102A AM2 Keyless Entry

AM2 provides Keyless Entry plus starter kill with two miniature 4-button remote transmitters.

- Parking Light Flash Confirmation
- Flashing LED Status Indicator
- Failsafe® Starter Kill
- Remote Door Lock / Unlock
- \$2500 Product Performance Guarantee

### 5303A AM9 2-Way Security System with Remote Start

2-Way is the hottest technology in vehicle security and remote start, and the newly redesigned AM9 is a state-of-the-art 2-Way system. It confirms all commands on its LCD screen.

- Remote Engine Starting
- Parking Light Flash Confirmation
- Flashing LED Status Indicator
- Failsafe Starter Kill
- Dual Stage Shock Sensor
- Remote Door Lock / Unlock
- Remote Panic
- \$2500 Guaranteed Protection Plan

### 3001A

#### AM1 Security Upgrade for OEM Keyless Entry System

Quickly upgrades the keyless entry system into a state-of-the-art security system with starter kill, shock sensor, dash light, passive arming and siren, using the remote controls that came with the vehicle.

- Parking Light Flash Confirmation
- Flashing LED Status Indicator
- Failsafe® Starter Kill
- Remote Panic
- Dual Stage Shock Sensor
- \$2500 Product Performance Guarantee

**Start your car from  
virtually anywhere  
with your smartphone**

## SMARTSTART REMOTE START SYSTEMS

MITO CORPORATION

## Night Time Driving Just Got Safer with Gentex Auto-dimming Mirrors

Eliminate dangerous glare from rear-approaching headlights with this sophisticated night driving safety accessory from Gentex Corporation. Special sensors and electronic circuitry detect glare and automatically dim the mirror accordingly. An accurate self-calibrating compass keeps you on track; exterior temperature display warns you with an ICE indicator when outside temperature is at or below 37 degrees.

*No more crowded visors  
with multiple remotes*

## Auto-Dimming Mirrors with HomeLink®

HomeLink®, the Wireless Control System that learns the codes for up to three remote control devices, is now available in an auto-dimming rearview mirror through MITO Corp. No more fumbling to find the remote control. No more crowded visors with multiple remotes for garage door openers, security lights and entry gates. Now all these devices can be operated with dedicated buttons integrated into a auto-dimming rearview mirror equipped with HomeLink®.

***Safety and convenience!***

***Accidents caused from unseen obstructions have caused loss of life and property damage.***

## Rear Camera Display (RCD) Auto-Dimming Mirrors

Another safety and convenience feature is a video display located in the auto-dimming rearview mirror. With a backup camera the display shows a real-time panoramic view of the rear of the vehicle. The display appears through the mirror glass automatically when the vehicles is shifted into "reverse".

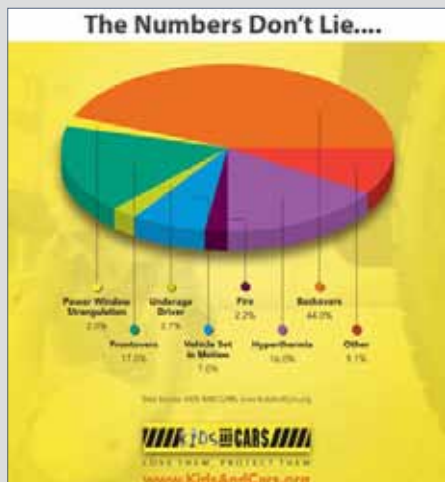

MITO CORPORATION

Our Mission is to create and sell products that bridge the gap between equipment installed in vehicles by their manufacturers and equipment customers want to have installed in their vehicles. With electronics rapidly changing and evolving, our vision is a constant, dynamic process of development and product realisation.

## NAV-TV Backup Camera Interfaces

**NAV-TV's high quality multi-purpose backup camera interfaces turn your vehicle's navigation screen in to a backup camera, a movie screen and more!**

**Backup Camera Interface** - The statistics do not lie. Back over deaths make up for 44% of all non-accident children fatalities. NAV-TV backup camera technology will help you see what's behind you, day or night.

**Video in Motion** - Allows you to watch movie on your navigation screen while parked or driving.

**Audio / Video Integration** - Connect any audio or video device to your screen based stereo unit in your vehicle.

*As with all NAV-TV products, we proudly stand behind our products with a 100% satisfaction guarantee. Additionally, we are always available to assist you with any questions you may have regarding your purchase.*

## Products

### RadioPRO

Radio Replacement Interface

4

### Engineered simplicity from the leader in OEM integration technology

Installing one of today's complex navigation or multimedia headunits can eat-up a lot of time and require several aftermarket integration modules to complete. The new RadioPro4 from Pacific Accessory Corporation - the leader in in radio replacement and steering wheel control (SWC) interfaces - simplifies the whole process, saving you time and cutting down on the number of OEM integration modules needed.

Essentially, the RadioPro4 is a replacement and SWC interface that comes pre-loaded with amplifier retention and SWC software, navigation based output signals and firmware that retains all of the vehicle's original safety and convenience features. Because of its all-in-one functionality, the RadioPro4 cuts down significantly on the number of SKUs you need to carry, and in-package firmware updating helps keep your inventory fresh and reliable.

## XM Snap In-Vehicle Radio Model#: XSN1V1

**XM snap!**

*Easy-to-use, anywhere-you-drive Satellite Radio.*

The XM Snap makes it easy to add Satellite Radio to your vehicle. Just plug it into the vehicle cigarette lighter or power adapter socket, connect the antenna and listen to SIRIUS XM through the existing vehicle radio with simple, do-it-yourself installation.

- Simple controls make it a snap to use.
- Fully adjustable flexible stalk with swivel allows for convenient placement so you can access the Radio controls and the display.
- View artist name, song or program title and channel information on an easy-to-read, high contrast display.
- Use the arrow keys to navigate categories and the rotary knob to change channels.
- Store your favorite channels for one touch access.
- Includes everything you need to listen in your vehicle

## XDNX1V1 XM OnlyX with PowerConnect Vehicle Kit

Do-It-Yourself Installation with PowerConnect is quick and effortless: Just plug it into your vehicle's power adapter socket to enjoy live Satellite Radio directly through your FM radio. The large color display and other advanced features maximize your listening experience.

- Revolutionary SiriusXM PowerConnect™ FM Transmitter works through your vehicle's radio
- Customize your display by choosing the backlight color theme that matches your mood
- View artist name, song title, and channel information on the large color display.
- Browse programs, artists, and songs on other channels without having to change the channel.

**XM onlyX**

**XM XpressRCi**

## XDRC2V1 XM XpressRCi w/ PowerConnect Vehicle Kit

Do-It-Yourself Installation with PowerConnect is quick and effortless. Advanced features let you get the most from your Satellite Radio. You can pause, rewind, and replay up to 60 minutes of live radio; get alerts when your favorite artists, songs and sport teams are playing on live radio.

- Revolutionary SiriusXM PowerConnect™ FM Transmitter works through your vehicle's radio
- Customize the large split-screen display to see what's playing on up to four channels
- View artist name, song title, and channel information on the large color display.
- Browse programs, artists, and songs on other channels without having to change the channel.

**XM SkyDock™**

Available on the App Store

## XM SkyDock for the Vehicle Model #: XVSAP1V1

*Easy-to-use, anywhere-you-drive Satellite Radio.*

Enjoy Live Satellite Radio anywhere you drive using your iPod touch® or iPhone®. Get commercial-free music, live sports, news and exclusive entertainment through your existing vehicle radio with easy Do-It-Yourself installation. Tag songs and easily purchase from iTunes® and expand your personal music library. Now with Replay allowing you to pause, rewind and replay up to 30 minutes of live radio.

- Revolutionary SiriusXM PowerConnect™ FM Transmitter works through the existing vehicle FM radio with easy Do-It-Yourself installation.
- Easy to move from vehicle to vehicle. Great for traveling.
- Charges your iPod touch or iPhone while you listen.
- Flexible Stalk optimizes placement in your vehicle and rotating dock works in portrait and landscape mode.
- Allows audio from your iPod touch or iPhone to pass through to your vehicle's radio.
- Enables your iPod touch or iPhone to control the XM SkyDock Satellite Tuner and PowerConnect FM Transmitter.
- Get alerts when your favorite artist or song is playing on live radio.
- One-Touch Jump™ to traffic and weather of the 20 of the most congested cities.
- Built-in Application Tour explains all the key functions of the application to help you get started.

**iPod Touch  
not included**

## SIRIUS STARMATE 8

### Starmate 8 with Vehicle and Home Kits Model#: SST8V1

*Customize your listening experience with the Sirius Starmate 8*

Want to hear something again? Starmate 8 allows you to pause, rewind and replay live satellite radio. Don't like to clash with your dash? Screen color options and a selection of trim rings are included to match your vehicle's dash lights - or your mood.

- Pause, rewind and replay up to 30 minutes of live satellite radio.
- View artist name, song title, and channel information on the large color display.
- Hear SiriusXM through your existing vehicle radio with easy, do-it-yourself installation.
- Browse other channels while listening to the current one.
- Store up to 10 of your favorite channels for one-touch access.
- One-Touch Jump™ to traffic and weather for the city of your choice, or back to your previous channel.

### SiriusXM Edge with Vehicle Kit Model #: SX1EV1

*Edge is the first satellite radio that receives SiriusXM Xtra Channels*

New channels not available on other radios. Edge lets you pause, rewind and replay live SiriusXM Radio. And on its large, color graphic display, you can view the artist name, song or program title and channel info. And with optional accessories you can listen to your Edge at home, at the office, in multiple vehicles— even outdoors.

## EDGE

- Pause, rewind and replay up to 30 minutes of live satellite radio.
- View artist name, song title, and channel information on the large color display.
- Hear SiriusXM through your existing vehicle radio with easy, do-it-yourself installation.
- Browse other channels while listening to the current one.
- Store up to 10 of your favorite channels for one-touch access.
- One-Touch Jump™ to traffic and weather for the city of your choice, or back to your previous channel.

### SCC1

**SiriusConnect™ Universal Vehicle Tuner**

- Connect and control SIRIUS directly through your Sirius-Ready headunit.
- Compact size allows for hidden installation.
- Interface cable combines power, audio and control through a single connection providing a direct audio connection to a headunit.
- Compatible with the next generation of SiriusConnect interface adapters.
- Includes magnetic mount satellite antenna, SiriusConnect interface cable, and removable mounting plate.

Works With  
**SiriusXM**  
READY

### SXV200V1

**SiriusXM Connect Vehicle Tuner**

- Add Satellite Radio to any SiriusXM-Ready™ car stereo receiver.
- Compact size hides discreetly behind the dash for a fully integrated look
  - Single interface cable connection to SiriusXM-Ready car stereo simplifies installation
  - Pause, Rewind and Replay up to 60 minutes of live Satellite Radio
  - Get alerts when your favorite song, artist or team is playing

### FMDA25

**FM Direct Adapter for PowerConnect™ Radios and Vehicle Kits**

Static-free audio connection for your Satellite Radio, hardwired directly into your vehicle's FM radio

- Single button switching between Satellite Radio and FM Radio
- Includes everything for most vehicle installations

## The unique and unsurpassed components of Vizualogic quality are:

**The "Look" – It bears repeating:** Our built-in monitors are already flush mounted and secure. They require **NO CUTTING**. Take out the original headrest. Put in Vizualogic. Keep the utility blades in the toolbox.

**Technology – Every screen monitor is designed to emit maximum brightness and high resolution.**

**Keen observation – Our PerfectMatch™ products are matched to OEM specifications.** Vizualogic's team of design specialists personally examine the OEM fabric and stitching to make sure our duplication is exactly like the original.

## SPAL / Quality Driven, Proven Performance!

Since 1959, SPAL has been a leading manufacturer of OEM and aftermarket automotive products. Our continuous effort in research and development has earned us an excellent reputation for high-quality products and state-of-the-art engineering and manufacturing. The goal of SPAL is to build the best products in the market today. We do this by controlling all areas of manufacturing to ensure the highest quality and performance available.

### 33000030 Deluxe Power Window Kit

This kit is designed to be extremely quiet. Suitable for the front or rear doors of nearly every type of vehicle.

### 33000031 SPAL POWER WINDOW KIT

This standard power window kit is suitable for the front or rear doors of nearly every type of vehicle. Features thermal overload protection and works with all switches, OEM and aftermarket.

### 3304010167

#### 2 DOOR SK WITH DOUBLE FRAMES (POD STYLE)

3 switch kit with white illumination, euro pod style with dual pods on each side

### 33040188

#### 3 Switch Kit Illuminated (Euro Pod Style (Single Pod))

### 37000148 2 Door Power Lock Kit w/M5

### 37000149 4 Door Power Lock Kit w/M5

Our 2- and 4-door locking systems offer an easy-to-install and inexpensive option for converting your old, manual door locks to power locks in just a few easy steps. This kit is a central locking style using Italian-made 8 lb rated actuators to operate the locking mechanisms. Best when used in conjunction with our RE-4 keyless entry system.

### 33040128 3 Switch Kit - ILLUM. w/Frames

### 33040147 3 Switch Kit - ILLUM. w/Frames

### 33040174 3 Switch Kit (push/pull type)

Universal Push/Pull 3 Switch Kit / Green Illumination

### SIL40K 40 lbs Solenoid w/Hardware Replacement Solenoid

This solenoid has over 40 pounds of force and a small mounting size which make them ideal for early street rods with small doors, antique vehicles and many others.

### 33040262 7 Switch Kit - Push & Pull Switch Universal Euro Style Kit with Green LED Illumination.

Kit includes (7) Switches Code 17400110A, (3) Frames Code 33030170, (1) Frame Code 33030168, (1) Frame Code 33030099, (1) Metal Bracket Code 33030171, (3) Metal Brackets Code 33030172, (1) Wire Harness Code 33020040 & (1) Wire Harness Code 33020041.

### 33040241 7 Switch Kit Illuminated Euro Pod Style

### Door Popper for shaved Handle Kit

### DP-3 Door Popper

DP-3 door popper features aluminum and stainless steel construction and is set for a flush or surface mount. The tips of the poppers can be cut down to give you the desired amount of "push" without sacrificing your doors or the cars around you.

SPAL electric power windows, for all vehicles (12V) not fitted with power windows, are perfectly adaptable to any type of door, both front and rear, and are very easy and quick to install. The mechanism remains completely inside the cover panel, thereby maintaining a very smart appearance.

The experience acquired and the care given to even the smallest details ensure that the entire family of SPAL products always operate smoothly, quickly and silently.

## MediaLinQ Plus - High End Digital Audio/Video interface with iPod Out & iPod Video Out functionality

(fits most Toyota/Lexus vehicles 2006-2011)

MediaLinQ Plus - is a new of its kind, it's a revolution in the car aftermarket electronics. This product is something car manufacturers have been missing for a while. And it's done with the most advanced technology, astonishing digital audio and video output, and friendly user interface. ML Plus incorporates state of the art digital video processing and pixel to pixel technology for crystal clear display, which beats your factory and any other aftermarket video quality. It incorporates - "iPod Out", "iPod Video Out", Pandora Internet Radio, and a lot more integrated apps coming in the future, controlled right through your navigation screen.

### iPod Out

iPod Out is a new Apple feature of iOS4+, it mimics the iPod and provides popular features like album art, fast and familiar browsing.

- "iPod Out" Interface (with Multi-language support)
- "iPod Video Out" Interface
- Pandora Internet Radio integration (iPhone or iPod touch with WiFi required)
- Digital Video output with HDTV 480p quality
- Analog Audio/Video input
- Analog Video input (camera)
- Video Out for Rear Entertainment System
- Customizable Menu
- iPod USB input
- Optional internal PATA HDD
- MP3, WAV, FLAC files playback from mass storage devices
- High-End Audio with Extremely Low level of Total Harmonic Distortion
- High-speed USB 2.0 Host interface
- Digital Audio processing
- Multi-source integration with SAT radio

### iPod Video Out

iPod Video Out enables video playback from iPod/iPhone. You can watch video files or display pictures/photos from your iPod/iPhone. You can also stream videos and movies from Internet using YouTube, Netflix, Movies 2 Go and others

TOYOTA - LEXUS - SCION  
**iPod integration**

- Provides full integration with the factory Radio/Navigation system
- Plug-n-Play easy installation and removal which preserves vehicle warranty
- Maintains full functionality of all factory installed components
- Improved sound quality
- Warranty: 1 year

During the last 20 years, Nexfil Co. has been leading the window film industry in Korea. Our expansion across the world has prompted us to open international branches in several countries including Germany, China and the United States. By strategically positioning ourselves globally, we are able to accommodate customers quickly anywhere in the world.

Our research and development team is world-class and have received numerous international awards for quality and innovation, as well as acquiring our ISO 9001 certification. We have also partnered with several foreign governments to promote energy conservation through the use of energy saving window films and we are a proud member of the Ministry of Commerce, Industry and Energy.

We have invested millions of dollars into our manufacturing facilities and we use only the finest materials in our window films. The Technology we utilize in constructing our films is unique to our processes and our proprietary method is unlike anything else in the industry. Our commitment to exceptional quality is your guarantee that the products you purchase are defect-free, will provide amazing beauty and performance and are engineered to last.

## The Benefits of Modern Window Film

Our new window films utilize today's most modern technologies in order to produce some of the best performing films in the world with the ability to block almost ninety percent of the sun's total solar energy. They work by rejecting heat and eliminating hot spots and create much more uniform driving environments.

## Superior Series

Nexfil understands that the beauty and elegance of a film means nothing if the film is not engineered to last. With this in mind, we set out to develop a film where the richness of its color would not fade and the privacy and protection provided by its color would endure years of harsh sunlight and heat.

We have combined our two proprietary technologies [Chip Fusion Processing and UV Coating Processing] to create the new Superior Series, in order to solve the color-fading issue while still providing extremely high optical clarity and maximizing heat rejection.

We first applied our newly developed process to our colored chip, removing the elements that were prone to fading, and then increased the quality and density of our UV coating. Next, while most manufacturers only use UV inhibitors in the adhesive to resist fading, Nexfil implemented a 2-Stage UV inhibitor process. We added our premium UV coating to our raw materials, as well as in the adhesive, to provide resistance to fading that is unparalleled in our industry.

The result is a film with superb clarity and Superior resistance to fading that is unlike anything on the market today.
